#### 33 CFR Part 165

[Docket Number USCG–2022–0211]

**RIN 1625–AA00**

#### **Safety Zones; Fireworks, Captain of the Port New York Zone**

**AGENCY:** Coast Guard, DHS.

**ACTION:** Temporary final rule.

**SUMMARY:** The Coast Guard is establishing five temporary safety zones in the Coast Guard Captain of the Port (COTP) New York Zone for multiple barge based fireworks displays that are scheduled to take place in June of 2022. During the enforcement times vessels will be restricted from portions of navigable waters in the vicinity of the fireworks displays on the Long Island Sound, Hudson River, and Upper New York Bay. The establishment of these safety zones is necessary to protect event participants, waterway users, and vessels, from the potential hazards associated with these scheduled events.

**DATES:** This rule is effective from 9 p.m. on June 18, 2022, through 11 p.m. on June 28, 2022.

**ADDRESSES:** To view documents mentioned in this preamble as being available in the docket, go to <https://www.regulations.gov>, type USCG–2022–0211 in the search box and click “Search.” Next, in the Document Type column, select “Supporting & Related Material.”

DHS Department of Homeland Security  
FR Federal Register  
NPRM Notice of proposed rulemaking  
§ Section  
U.S.C. United States Code

##### **II. Background Information and Regulatory History**

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because doing so would be impracticable and contrary to the public interest. The details of these events were not known to the Coast Guard until there was insufficient time to publish an NPRM. Delaying the effective date of this rule to wait for a comment period to run would be impracticable and contrary to the public interest because it would inhibit the Coast Guard’s ability to protect the public and vessels from the hazards associated with barge based fireworks displays. The expeditious implementation of this rule is in the public interest because it will help ensure the safety of event participants, spectators, waterway users, and surrounding vessels.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Delaying the effective date of

this rule would be impracticable and contrary to the public interest because the safety zones must be enforced for the fireworks displays in June of 2022, to mitigate the potential safety hazards associated with these events.

##### **III. Legal Authority and Need for Rule**

The Coast Guard is issuing this rule under authority in 46 U.S.C. 70034 (previously 33 U.S.C. 1231). The Captain of the Port New York (COTP) has determined that potential hazards associated with barge based fireworks displays will pose a significant risk to public safety and property. This rule is needed to protect personnel, vessels and the marine environment in the navigable waters within the fallout zone immediately before, during and after the fireworks displays.

##### **IV. Discussion of the Rule**

This rule establishes five temporary safety zones, which will be enforced for a relatively short duration, on various days throughout June of 2022 as described below. Each event and its corresponding enforcement dates and locations are described below.

(1) Jersey City, Hudson River, Safety Zone Launch site: A barge located on the Hudson River, in approximate position 40°41’08” N, 74°04’10” W, approximately 100 yards east of Caven Point. This safety zone is a 90-yard radius from the barge and will be enforced on June 18, 2022, from 9 p.m. until 10 p.m.

(2) Big Rock Point, Hudson River, Safety Zone Launch site: A barge or floating platform located on the Hudson River, in approximate position 41°53’50” N, 73°57’49” W, approximately 500 yards north of Big Rock Point. This safety zone is a 360-yard radius from the barge and will be enforced on June 25, 2022, from 9:30 p.m. until 11 p.m.

(3) Governors Island, Upper New York Bay, Safety Zone Launch site: A barge located on the Upper New York Bay, from approximate position 40°41’25” N, 74°01’34” W, approximately 365 yards west of Governors Island. This safety zone is a 360-yard radius from the barge and will be enforced on June 26, 2022, from 9:30 p.m. until 11 p.m.

(4) Little Neck Bay, Long Island Sound, Safety Zone Launch site: Two barges located on Little Neck Bay on the Long Island Sound in approximate position 40°47’38” N, 073°46’13” W, approximately 300 yards east of Fort Totten Park. This safety zone is a 360-yard radius from the barge and will be enforced on June 28, 2022, from 9 p.m. until 10 p.m.
